Mr. William J. Casey  
Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear Mr. Casey:

I am writing to you at the request of Secretary of Labor Bill Brock regarding an issue of special concern to this agency and, I hope, to your agency as well. As the Assistant Secretary for Veterans' Employment and Training, I am responsible for the implementation of several Federal statutes pertaining to veterans' employment. One of these statutes imposes a responsibility upon Federal contractors to take certain actions relative to the employment of veterans.

Specifically, Title 38, United States Code (USC), Section 2012 requires that any contract in the amount of \$10,000 or more entered into by any department or agency for the procurement of personal property and non-personal services (including construction) for the United States contain a provision requiring that the contractor take affirmative action to employ and advance in employment qualified special disabled veterans and veterans of the Vietnam era. This section also requires that each such contractor immediately list all of its suitable employment openings with the appropriate local Job Service office of the State employment service system. The full text of the contract provision is contained in the Federal Acquisition Regulation 52.222-35.

I am writing today to enlist your aid in calling these requirements to the attention of contractors who do business with your agency. I am very concerned that over the past few years there has been a drastic decline in the total number of jobs that have been listed with the Job Service by Federal contractors. That decline has, of course, resulted in fewer disabled and Vietnam-era veterans receiving jobs with Federal contractors. This decline hurts not only the men and women who served our nation in the Armed Forces, but also hurts employers who do not have the benefit of the skills and training that these veterans possess.

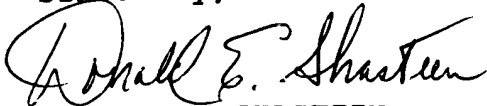

I have taken a number of positive steps within my own agency to promote the awareness of this requirement. I feel we are making considerable progress but the task is a formidable one. I am going to take the liberty, therefore, to write to the procurement

- 2 -

executives in your agency, reminding them of their responsibility to insure that contractors are fully cognizant of their contractual obligation and offering them our assistance in these efforts.

I wish to thank you in advance for your cooperation in working to maximize the employment opportunities for those who have given so much to our country. "Veterans - one good job deserves another."

Sincerely,

DONALD E. SHASTEEN
